

# Executive Education Calendar 2026-2027

LabinMotion is a platform for best-of-the-class executive education certification programs on management education that are affordable, convenient, relevant, and delivered by top-notch subject matter experts having impressive academic credentials (MBAs and PhDs from IIMs and Tier-1 B-Schools) with rich industry and teaching experience.

Business Leaders need to upskill teams **now**, not six months later. They need depth, not generic MBA-style coverage. And they need scale without breaking budgets.

## Existing ExecEd Solutions

- » Tier-1 B-Schools > High quality, high cost, limited seats
- » MOOCs > Low cost, low engagement, no peer learning
- » Long-duration EdTech > Generic, slow, MBA-like programs

Tier-1 B-Schools offer excellence but at a price that restricts participation. MOOCs are affordable but impersonal. Long-duration EdTech programs are broad, slow, and indistinguishable.

## The LabinMotion Advantage

Short, focused programs

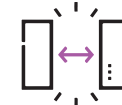

Live, interactive learning

Top-notch faculty

Affordable that enables scale

Spaced out learning

Executive education doesn't need to be exclusive to be excellent.  
 It needs to be relevant, accessible, and outcome driven.

## Organizational Requirements

- » For years, executive education followed a predictable model: premium pricing, limited seats, long formats, and slow deployment. That model no longer works.
- » Organizations would like to build capabilities quickly without compromise on rigor and program quality, at an affordable price point thereby creating more impact through scale
- » Organizations prefer pedagogies such as spaced-out learning that supports reflection, discussion, and application of learnings
- » Leaders prefer quick deep-dives into specific programs that are of short-duration instead of broad-based programs that are spread across quarters

## LabinMotion Offerings

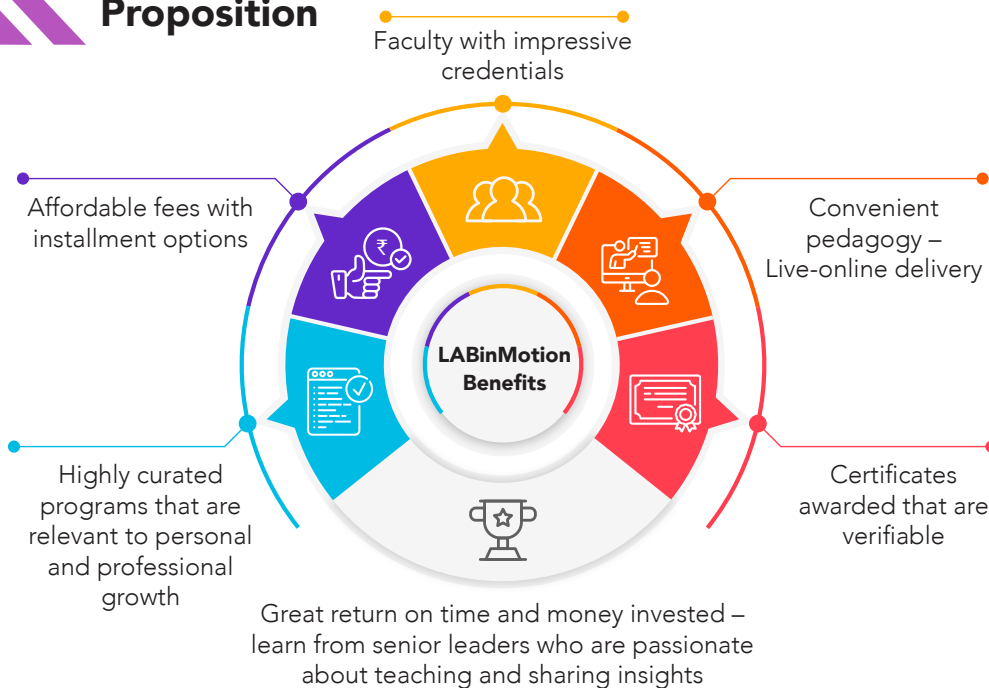

- » Short, focused programs aligned to real business needs
- » Live, interactive learning with peer discussion and reflection
- » Faculty with MBA/PhDs from IIM/Tier-1 B-Schools and rich industry experience
- » Affordable pricing that enables scale and impact.
- » Flexible schedules (spaced out across weekends / after work)

### Impact

- » Faster capability building
- » Higher ROI per learning rupee
- » Scalable, inclusive talent development
- » Shared ownership via cost-sharing (e.g. 60% organization / 40% participant) thus making it a win-win for everyone

**Outcome**  
Agile organizations, empowered employees, and impactful learning at scale.

## The Value Proposition
